Certified Ethical Hacker

Certified Ethical Hacker

Course Description

The Certified Ethical Hacker (CEH) program is the core of the most desired information security training system any information security professional will ever want to be in. The CEH, is the rest part of a 3 part EC-Council Information Security. Track which helps you master hacking technologies. You will become a hacker, but an ethical one! As the security mind-set in any organization must not be limited to the silos of a certain vendor, technologies or pieces of equipment. This course was designed to provide you with the tools and techniques used by hackers and information security professionals alike to break into an organization. As we put it, "To beat a hacker, you need to think like a hacker". This course will immerse you into the Hacker Mind-set so that you will be able to defend against future attacks. It puts you in the driver's seat of a hands-on environment with a systematic ethical hacking process. Here, you will be exposed to an entirely daren't way of achieving optimal information security posture in their organization; by hacking it! You will scan, test, hack and secure your own systems.

Course Description

Here, you will be exposed to an entirely daren't way of achieving optimal information security posture in their organization; by hacking it! You will scan, test, hack and secure your own systems. You will be thought the Five Phases of Ethical Hacking and thought how you can approach your target and succeed at breaking in every time! The phases include Reconnaissance, Gaining Access, Enumeration, Maintaining Access, and covering your tracks.

The tools and techniques in each of these have phases are provided in detail in an encyclopaedic approach to help you identify when an attack has been used against your own targets. Why then is this training called the Certified Ethical Hacker Course? This is because by using the same techniques as the bad guys, you can assess the security posture of an organization with the same approach these malicious hackers use, identify weaknesses and x the problems before they are dented by the enemy, causing what could potentially be a catastrophic damage to your respective organization. Throughout the CEH course, you will be immersed in a hacker's mind-set, evaluating not just logical, but physical security.

Target to Audience

Individuals
- ❑ School Students
- ❑ College Students
- ❑ IT Professionals
- ❑ IT Officers
- ❑ IT and LAW Officers

Corporates
- ❑ IT Training Firms
- ❑ IT Consultants
- ❑ IT Experts
- ❑ IT Officers
- ❑ IT Institutions & Colleges
- ❑ IT Graduated or Computer Science Students

Duration of Program

❑ 1 Month (2 Hours per Day)

❑ 15 Days (4 Hours per Day)

❑ 8 Days (5-6 Hours per Day)

❑ 5 Days (8 Hours per Day)

Certification

The Certified Ethical Hacker Exam (CEH V9) 312-50 may be taken on the last day of the training (optional). Students need to pass the online exam to receive CEH Cortication.

Learning Track

Exam Details

Exam Title: Certified Ethical Hacker (ANSI)

Exam Code: 312-50 (ECC EXAM), 312-50 (VUE)

Number of Questions: 125

Duration: 4 hours

Availability: Prometric Prime / VUE / ECCEXAM

Test Format: Multiple Choice

What we try to Give

We try to give you real industry standards with best possible quality to all our customers and clients. We focus on Various sections of Society and running a national level campaign to literate Students from all parts of company who can't Afford "Basic IT Computer Training". We wish we could teach as many students from all over the world and make it a beautiful place to work. We work on minimum gross margins to strength the Indian It infrastructure.

What is New in the CEHV9 Course

This is the worlds most advanced ethical hacking course with 18 of the most current security domains any ethical hacker will ever want to know when they are planning to beef up the information security posture of their organization. In 18 comprehensive modules, the course covers over 270 attack technologies, commonly used by hackers. Our security experts have designed Online Training and Testing Labs which mimic real time scenarios in the course to help you "live" through an attack as if it were real and provide you with access to over 2200 commonly used hacking tools to immerse you into the hacker world. As "a picture tells a thousand words", our developers have all this and more for you in over 2200 graphically rich, specially designed slides to help you grasp complex security concepts in depth which will be presented to you in 1 Month, 15 Days, 8 Days and 5 Days hands on class by our Certified Instructor. The goal of this course is to help you master an Ethical Hacking methodology that can be used in a Penetration Testing or Ethical Hacking situation.

Course Outline V9

Introduction to Ethical Hacking	Footprinting and Reconnaissance	Scanning Networks	Enumeration
System Hacking	Malware Threats	Sniffing	Social Engineering
Denial of Service	Session Hijacking	Hacking Web servers	Hacking Web Applications
SQL Injection	Hacking Wireless Networks	Hacking Mobile Platforms	Evading IDS, Firewalls, and Honeypot
	Cloud Computing	Cryptography	

What will you learn?

1. Introduction to Ethical Hacking
2. Foot printing and reconnaissance
3. Scanning Networks
4. Enumeration
5. System Networks
6. Malware Threats(Virus, Trojan, Worms)
7. Sniffing
8. Social Engineering
9. Denial-of-Service
10. Session Hacking

What will you learn?

1. Hacking Web servers
2. Hacking Web Applications
3. SQL Injection
4. Hacking Wireless Networks
5. Hacking Mobile Platforms
6. Evading IDS, Firewalls, and Honeypots
7. Cloud Computing
8. Cryptography
9. Kali-Linux Hands-On Training
10. Penetration Testing
