

# END POINT SECURITY

Learn | Research | Innovate

Career Guidance from Cyber Security Expert : Mohit Yadav

## COURSE DESCRIPTION

End Point Security tracks and hunts the next-level viruses and malware in your End Point devices from a centralized system. Seamless protection that doesn't come in your typical anti viruses and firewalls. End Point Security uses machine learning and fuzzy logic to detect that bypasses your traditional protection mechanism. Do the real things in your real-time protection those new viruses.
